

Thoughts from Dave – Two months into 2022, our Ugandan partners are really cooking. The training sessions are feeding hungry church leaders with biblical truths. New emerging leaders are being identified and it is a great joy to see the Training of Trainers (TOT) teams work together as they teach in the central and eastern regions of Uganda.

From time to time, Pastor Abel Segirinya, President of the Baptist Union of Uganda, joins the teams and shares the vision of creating a new generation of church leaders with area pastors. His presence encourages a church wide effort to achieve this important goal.

March offers key opportunities for the development of biblical leaders. We are on our way to fulfilling the year's goals of 22 training seminars in 2022. **Thanks for standing with us in prayer and your support.**

Give Thanks With Us

In early February, we received a \$25,000 grant from the J Russell Foundation for the development of emerging leaders in Uganda. The Foundation's commitment to this vision has been amazing and their generous support plays a crucial role in fulfilling this vision in the Tororo, Kiboga and Kapchorwa areas of Uganda.

Peru Update- Pacha Waray is the Quechua ministry of *Language, Literacy and Life* (LLL). Due to COVID-19, their in-person pastoral training was limited in 2021. Now, they are ready to burst out into rural Quechua areas. Recently, \$1,000 was sent to LLL to prime the pump for upcoming events in the CAPAS (Capable Pastors) project. **Pray for Felix and Humbelina as they creatively develop and teach biblical material to rural pastors.**
