

**November 2021** - One of the trip's highlights was joining with the Training of Trainers group (TOTs), our Kampala Baptist Church partners, and Pastor Abel Segirinya in developing two videos that capture the beauty of God's work among and through us. Take a few minutes and discover the joy and purpose of the Training of Trainers and Emerging Leaders projects. We think you will be encouraged and better understand the important nature of these projects as we move into 2022.

**July 2022 Videos - Training Target Video** – Since day one, our main mission is the training of least-resourced pastors in villages and dispersed regions of the country. We thank God for the leaders and pastors who avail themselves to the seminars. Please pray that these relational connections will encourage biblical thinking and hearts for ministry practices that honor God and grow the church toward maturity in Christ. In this video, Pastor Andrew explains why this training is extremely important.

**Confronting African Religions** – Everyone has cultural assumptions. We form them from life experiences as well as through one's family upbringing. God's Word speaks truth into these powerful forces and offers a clear view of God's purposes behind one's existence. It's true for the church as well. African pastors swim in the waters of African Traditional Religion and often find it hard to fight its strong undertow. In this video, Pastor Andrew illustrates the temptation that many pastors face and offers an example of how we address the issue in our training seminars.
